## COURSES

Sri Lanka English Academy  
(SLEA)  
Govt.Reg.No : Ke/Rambu/4555  
Power Computer Academy  
(PCA)  
Gov.Reg : NVPS/37234

## LANGUAGE

Sinhala: Native / Fluent  
English: Intermediate  
(Reading, Writing & Speaking)

## ABOUT ME

Motivated BSc Information Technology undergraduate at SIBA Campus with practical knowledge of software development, web technologies, databases, IoT and cloud computing. Skilled in Java, Python, JavaScript, PHP, Angular, Laravel, MySQL and MongoDB through academic projects. Strong in problem-solving, teamwork and communication, seeking an IT internship to gain industry experience and contribute to innovative solutions.

## EDUCATION

- **Bachelor of Science in Information Technology** 2024 – Present  
Sri Lanka International Buddhist Academy (SIBACampus)  
Pallekele, Sri Lanka  
Expected Graduation: 2027
- **G.C.E. Advanced Level (Technology Stream)** 2022 (2023)  
Ku/Pothubowa Maha Vidyalaya  
Mawathagama, Sri Lanka
- **G.C.E. Ordinary Level** 2019  
Ku/Weuda Royal Cental College  
Weuda, Sri Lanka

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, C++, JavaScript, PHP, SQL  
**Web Development:** Angular, Laravel, HTML, CSS, Bootstrap, Node.js  
**Database Management:** MySQL, MongoDB  
**Cloud & DevOps:** AWS, Docker  
**IoT:** Arduino, ESP8266, Blynk  
**Tools & Technologies:** Visual Studio Code, IntelliJ IDEA, NetBeans, MySQL Workbench, phpMyAdmin, Postman, Anaconda Navigator, Figma, Canva  
**Version Control:** Git, GitHub

## SOFT SKILLS

- Team Collaboration and Leadership
- Problem-Solving and Analytical Thinking
- Effective Communication and Presentation
- Adaptability and Continuous Learning
- Time Management and Task Prioritization
- Creativity and Attention to Detail

## PROJECTS

### Full-Stack CRUD Application

Individual Project | Laravel & Angular

- Developed a full-stack web application using Laravel REST APIs and an Angular frontend.
- Implemented complete CRUD operations for efficient data management.
- Developed image upload functionality and a responsive user interface.
- Integrated MySQL database for storing and managing application data.
- Used Angular Reactive Forms and Http Client for frontend data handling and API communication.
- Implemented Laravel file handling for efficient image management.
- Tested and validated REST API end points using Postman.

### Health & Fitness Tracking System

Individual Project | PHP, MySQL, HTML, CSS, JavaScript & XAMPP

- Developed a web-based system for managing user profiles and fitness information.
- Implemented user registration, login and authentication features.
- Developed CRUD operations for managing health and fitness records.
- Designed modules for user profiles, health metrics, workouts and fitness tips.
- Integrated MySQL database for storing and retrieving user data.  
Developed a user-friendly interface using HTML, CSS, JavaScript and PHP.
- Tested and executed the system locally using XAMPP.

### Smart Greenhouse Monitoring & Automation System

Group Project | Arduino Mega 2560, ESP8266, C++, Blynk IoT & Sensors

- Developed an IoT-based greenhouse monitoring and automation system using Arduino Mega 2560 and ESP8266.
- Monitored temperature, soil moisture and motion using sensors.  
Automated watering, ventilation, lighting and door access.
- Integrated Blynk IoT for real-time monitoring and remote control.  
Programmed microcontrollers using C++ and collaborated with the team for system development and testing.
- Gained practical experience in IoT, embedded systems, sensors and automation.

## CAREER GOAL

Seeking an IT internship opportunity to apply my academic knowledge in a real-world environment, gain hands-on experience, strengthen my technical and professional skills and contribute to meaningful technology projects.
